

## MISSISSIPPI LAND CHEAP.

Come south where the climate is ideal, the winters short and mild and lands are cheap.

All kinds of stock, sheep, cattle, hogs, etc., do well here on native pastures without one cent expense for seeding down. Great country for stock, truck and general farming, can raise two crops a year on same land, corn has plenty of time to mature after oats or truck.

Hazelhurst shipped several hundred ears of cabbage, beans, tomatoes, peas, etc., at good paying prices this season. As high as 445 earloads shipped daily in the rush of the season.

Thos. Bros., big truckers shipped 35 earloads of cabbage of their own raising this season at from \$500 to \$650 per ear and tomatoes, beans, peas, etc., in proportion at good paying prices. A Mr. Mathis, 7 miles northeast of Hazelhurst, planted 30 acres to cabbage and averaged 125 crates to the acre which were worth an average price this year of \$2.50 per crate right here at the ear, and now he has as fine corn growing on the same land as the sun ever shone on in Kentucky or Tennessee. Mr. Mathis is also a big cattle man and has been for year and has made good at it too. I merely mention these as examples of what can be done when the right man is pushing things and on land too that can be bought at from \$5.00 to \$25.00 per acre at last.

We haven't the richest country to be found but the poorest of our hill lands make fine grazing for stock while we have a great deal of good hill land as well as lots of good bottom and second bottom.

There is no question but that we have a healthy country, being located 240 feet above sea level and being mostly rolling is quickly and easily drained.

Our country has Western Kentucky and Tennessee skinned a country block when it comes to roads we have miles and miles of pike roads that neither get muddy or dusty, to speak of. There has not been a day since we have been here now nearly a year that we couldn't go to town in the "tin Lizzie" on high or to Jackson for that matter a distance of 45 miles in a couple of hours or less time as it is piked all the way. Maybe this doesn't beat eating dirt and wading the mud.

Any prospectors interested in farm properties down this way would do well to see me before buying as I have some real bargains in stock, truck and general farming propositions that should interest anyone.

Ask anyone of good judgment that has ever been down this way and see if they don't tell you that our land values are ridiculously low.

See me in Fulton or vicinity during August or last of July and let's talk the matter over. After this time I will keep a car at all times to show prospectors the country.

Call at the City Drug store for me or at my home 6 1/2 miles southeast on Monticello pike through the McCordle system, when coming to Hazelhurst, and I will run right down and get you.

Have some rare bargains in improved farms at \$1.20 and \$15 per acre that are hummers and

can make easy terms. Some real choice stuff right on pike higher and some further back cheaper still. I have listed nothing but bargains and can certainly please you both in the property and the price.

Respectfully yours,  
CLYDE ROPER.

## WHY ENDURE SUMMER COLDS?

It isn't necessary to have a stuffed head, running nose. To cough your head off as it were. All you need to do is to use Dr. Bell's Pine-Tar-Honey. The soothing and healing balsams open the clogged air passages and in a short time you get relief and start on the road to recovery. Your nose stops running, you cough less and you know you are getting better. Get a bottle, use as directed. Keep what is left as a cough and cold insurance.

## LEMOLAC PLEASURES THE PUBLIC.

If you are bilious or subject to habitual constipation you should give Lemolac a trial as it is a real liver medicine. There are many so called liver medicines on the market that act only on the lower bowels. Take a few doses of Lemolac and you will notice the difference. Lemolac is filling a long felt want as it takes the place of calomel. Please note the pleasant effect as well as the pleasant taste of Lemolac. The reason why Lemolac pleases the public are that it does not gripe, acts gently but surely on their liver, is pleasant to take and does not cause them to lose time from their work. If it pleases thousands of others, it should please you. Try a bottle at our risk. Helm & Ellison.

P. S. If you forget the name spell calomel backwards. Adv.

## Steak Satisfaction

WHEN a nice, large, juicy, tender steak stares you in the face at home you forget you are tired and hungry. You dig in and laughter it.

We sell that kind.

Our steaks make the ordinary, cheap, tough, little article that masquerades as sirloin or porter-house look like a piker.

Our steaks are the real thing.

Order one and see.
